

Web/Software Developer (m/f)

Kaeyros Analytics GmbH is a young growing German Start Up based in Dortmund (Germany) acting in the area Data Science and Digital Transformation for SMEs. Following our mission “**From Data to product**” we create Data Products for our clients and support them in understanding and optimizing their business and processes.

We are currently looking at you as **Web/Software Developer (m/f/d)** at the office of our **Cameroonian Subsidiary in Yaoundé/Biyem-Assi**.

Contract Type: Internship leading to fulltime employment (6 months)

Working Days: Monday – Friday (Saturday half day)

In this position you are responsible for various digital projects within Kaeyros Analytics Germany. This involves the support of existing and new online web applications as well as further development of digital solutions in the environment of the products offered by Kaeyros Analytics.

Your Challenges

- Technical support of the team in further projects
- New/further development of web projects with modern UI/UX Frameworks (Angular, ...)
- General support and maintenance of existing online web applications
- Administration and maintenance of an existing e-commerce platform
- Analysis of specifications regarding their feasibility
- Participation in telephone conferences together with the project manager

Your Profile

- At least three years of professional experience in a similar position
- Degree in computer science or comparable qualification in the IT field

- Technical Skills:
 - Advanced knowledge in Python
 - Experience using Angular Framework
 - Advanced knowledge in HTML, CSS, JavaScript (especially jQuery)
 - Experience with Github versioning tool and CI/CD for Github
 - Experience with Content Management Systems
- Structured way of working with continuous self-control
- Quick comprehension and understanding of (technical) processes, procedures, and systems
- Self-organization and independent way of working
- Enjoying working in a dynamic environment and solving new challenges
- Enjoy working in agile teams
- Fluent English and French skills (spoken and written)
- Ability to organize the work and to lead a Team.

What we offer

- An excellent working atmosphere and confidence in your skills
- A range field of experience with creative freedom
- Personal and professional development opportunities
- Access to online learning opportunities
- Flexible working hours in coordination with your team
- The technical equipment for participating in mobile work
- Colleagues full of ideas, on eyelevel
- Family start-up atmosphere despite continuous growth;
- Modern offices with very good accessibility
- Attractive benefits such as:
 - Attractive monthly salary
 - Occupational retirement provision
 - 20 days' vacation
 - Regular employee and team events

Does that sound exciting to you? Then we are looking for you to strengthen our team and look forward to your application containing your current CV and a motivation letter.
